

COVID-19 ADVISORY NO. 008
EASTERN VISAYAS
March 26, 2020

May I once again remind all health workers to follow the core values set by the Department of Health: A Review

1. **Professionalism.** Behaving, doing, speaking things in a professional manner. Wherein one should be responsible in everything that we do, behave and say. You take the credits of your success, and on the other hand, you can take the blame for your failures.
2. **Responsiveness.** This is when we work attentively for our customers and in return they are provided with prompt action. They are satisfied and become happy.
3. **Integrity-** This is keeping commitment intact and in place. Be true to what you say. Be honest in all undertakings.
4. **Compassionate** – Being compassionate is a sign of showing empathy and of being kind and caring. This is manifested of the love and concern we have for others.
5. **Excellence-** Passion for work is the most important step in gaining excellence, believing in yourself and learning from the best (learning by modelling).

MINERVA P. MOLON, MD, MPH, FPPA, CESO III
Director IV
